Re: JANE GIBSON

DT/Gibson

Mr. Watson talked with Theodore Strong, an attorney of this city, relative to certain information which John Garry, formerly of New Brunswick, N.J. might have concerning Jane Gibson. Mr. Strong recalls that at the time the case was first presented to the Grand Jury, John Garry gave him some information, the exact nature of which he does not recall. At the time, however, he considered that it might be of value and he therefore wrote to the Prosecutor of Somerset County, I believe Beekman, and sent Garry over to give his story.

Garry at the present time is living in the Colonial Garden Section of Trenton, N.J. and is employed in the State Highway Department. He has a son named William J. Garry who also resides in Trenton and who at one time worked for the Pennsylvania Railroad at that city. In fact he may still be in their employ.

There was a family named either Coffey, Coffey, Coffey or some such similar name who formerly lived around De Russey's Lane and are said to have considerable information in regard to Jane Gibson. This family no longer resides out that way but Garry can probably tell where they are at present.

Respectfully yours:

D.T.
